KEEPING THE BROTHERHOOD INFORMED OF WHERE WE'VE BEEN & WHERE WE'RE GOING.

International

Faith is desire in action. We often want to see things happen in our local assembly or in the Kingdom at large. The knowledge that we should step forward and be what we want to see can change the world.

Be What You Want To See.

The Bible tells us in the book of James that faith without works is dead. That scripture is used to preach about many things but what the actual subject matter being discussed is helping others. After a recent study of this portion of scripture I came away with a different idea of what James was telling me.

We can believe that the church should reach out and minister to certain needs but, without our actual participation in that level of ministry, then our belief that these

things are necessary is dead.

Hebrews 11 tells us that faith is the evidence of things hoped for. When we stand and do what we hope to see we put substance to what we don't yet see. What would you like to see your church become? Maybe you think... I want my church to be a church that gets behind the pastor. Then, in faith, stand up and be that person who gets behind the pastor and your faith is now evidence of what you do not yet see.

When we stand up and act on what we would like to see then are those

actions seen and our faith has become the evidence and the substance of what had previously been a dream. Our faith has become alive because we have put action to that faith.

Recently I have spoken to our church on this subject and we are seeing people step out and do things that they had wanted to see. We recently had an old fashioned Victory March because one of our young people decided to be what they wanted to see. That ended up leading to a great move of God. What is your wildest dream for the Kingdom? What would you love to see happen around you? You'll be amazed at what will happen around you when you put some action and life to your faith and step out and be the evidence and substance of what you want to see. Dreams are dreams but faith is action and God honors it when we move forward in faith.

Get Ready. Get Set. Invest.

There are investment opportunities everywhere we look these days. The key is being able to recognize the right one when it comes along.

These days there is a lot of talk about investing. Should you buy stocks? What about bonds or precious metals. Investments are a hot topic of discussion in an attempt to shore up our finances against future downfalls. These are important subjects and might be worth consideration but if

I were to encourage someone to invest I would look at many of the same parameters.

I'd want to invest in something that would help shore up our future. I would want to invest in something that has the potential to return big dividends as well.

With those things in consideration my advice is this. Invest in people.

There are many different investment options available as well. We can invest in new converts, we can invest in young people who show a potential for ministry. We can invest in our own children or in the youth group at church. There are so many ways to invest in people around us and the pay off is eternal for everyone involved.
